PROCEDURE STATEMENT

The PI is responsible for ensuring that all required signatures are obtained on the ePRAF and that the proposal package is complete prior to submission of the same to ORED. The PI must complete an ePRAF for each proposal and route the ePRAF, together with the complete proposal, to the PI's and Co-PI's chairs/center directors and deans for review. If the proposal is approved, each such person must sign the ePRAF to evidence that approval. The ePRAF describes what each signatory to the form is approving in the proposal.

The PI must ensure that the routing of the ePRAF and proposal to all required signatories is done on a schedule that allows each individual to properly review the proposal prior to signature and allows the complete and signed proposal to be timely provided to ORED.
