

Graduate Program Monitoring and Evaluation # 380.0451

INITIAL EFFECTIVE DATE: June 2012	LAST REVISION DATE: March 28, 2023	RESPONSIBLE UNIVERSITY DIVISION/DEPARTMENT University Graduate School
---	--	---

POLICY STATEMENT

Graduate program reviews shall be conducted at both the academic unit and University level.

Each graduate program shall conduct periodic and formal reviews of its principal components and outcomes to determine:

- whether academic goals are being met;
- whether goals for student success are being met;
- whether substantive changes are needed in program content, direction and scope; and
- whether adjustments are needed in the level of resource support.

One outcome of the review shall be the development and/or refinement of a long-range plan for the program. This plan shall specify objectives and set target dates for accomplishing recommended changes. This effort is not intended to replace required program reviews by the Board of Governors or the requirements for review and evaluation by external accrediting agencies. Instead it is viewed as a continuing effort which should facilitate the accomplishment of University goals.

The Dean of the University Graduate School shall monitor compliance with University standards, policies and procedures through periodic reports from the programs and/or departments. Other data and resources may be used in an analysis of program performance.

SCOPE

Faculty, graduate students and University Graduate School administration.

REASON FOR POLICY

This policy sets forth the criteria for monitoring and evaluating graduate program reviews at the academic unit and University level.
