POLICY STATEMENT

Facilities and administrative costs received by the University on sponsored projects that are not required for the operation of the Office of Research and Economic Development shall be used by the Vice President for Research to support other research or sponsored training programs in any area of the University. Please refer to [Fla. Stat. Section 1004.22\(5\)](#)

SCOPE

F&A received by the University shall be used for the operation of the Office of Research and Economic Development as required by applicable Florida law. The Vice President for Research may determine how F&A may be distributed to University units and/or PIs if such distribution is in the best interest of the research mission of the University. The Office of Research and Economic Development shall process such F&A distribution to the applicable University unit's or PI's F&A Non-Sponsored Project ID.

If F&A is so distributed, the University units and PIs may only use such funds to support other research or sponsored training programs in any area of the University. Anyone processing transactions using F&A funds, such as faculty, staff, students, principal investigators, administrative personnel, etc. must adhere to using the funds solely to support research and sponsored training programs. Those University units and/or PIs must provide reporting as requested by the Vice President for Research at such intervals or on an ad hoc basis as deemed appropriate by the Vice President for Research, to delineate the manner in which the distributed F&A was spent by the units and/or PIs.
