-----------------------------	--	-------------------------------

**POLICY STATEMENT (R\*)**

All FIU employees, officers and agents must:

- 1) comply with Florida’s Public Records Law,
- 2) comply with State retention schedules for University records, and
- 3) comply with laws and FIU procedures related to protecting the confidentiality of Confidential Records and Non-Public Records.

Unless specifically exempt from disclosure or confidential pursuant to law, all documents and other written communications, regardless of form, that are made or received pursuant to law or that are made, received or maintained in the transaction of official University business are Public Records. After appropriate legal review, the Public Records will be available for inspection by the requestor, at reasonable times and under reasonable conditions, and the University will furnish copies of such Public Records to a requestor upon payment of the appropriate charge for the cost of duplication and labor.

Employees may not destroy or delete University records in their possession and control except in accordance with the record retention schedules applicable to FIU and upon disposition approval from the Records Management Liaison Office. The record retention period is based on the nature of the information included in the record and vary from immediate destruction to permanent retention. Retention periods can be found in the retention schedules adopted by the State of Florida (see Related Information below for links to these schedules).

Employees are expected to participate in records management training as needed to satisfy any compliance requirement updates in accordance with the guidelines of the Florida Department of State’s Division of Library and Information Services.

#### **PROCEDURES (O\*)**

1. When a University employee, officer or agent receives a public record request to inspect or copy a University record, that person must immediately forward the request to the Office of the General Counsel. There is no required format for a public record request; requests may be made orally or in writing; however, the requestor may be asked, but not required, to put the request in writing for the sake of clarity. A requestor does not have to state the reason for making the request. The Office of the General Counsel will provide guidance in determining what University records are Confidential Records or Non-Public Records, and will provide assistance in responding to the requestor.
2. Unless otherwise instructed by the Office of the General Counsel, the copies of the University records responsive to the request must be sent to the Office of the General Counsel for review prior to allowing the requestor to inspect the records or prior to sending the requestor copies of the University records. Copies of University records that are Confidential Records or Non-Public Records will not be provided to the requestor. Copies of the University records that are Public Records, but contain confidential or non-public information will be provided to the requestor only after redacting the confidential or non-public information, unless the confidential or non-public information in the record is so extensive that removal is not feasible or the record is an intrinsic confidential record. In either case the entire record will be withheld.
3. Within a reasonable time, the Public Records will:
  - a. be made available for inspection by the requestor under reasonable conditions (which may include supervision of inspection), and/or
  - b. be copied and furnished to the requestor upon payment of any applicable duplication and labor costs. If the records requested require extensive use of information technology resources, extensive clerical or supervisory assistance, or both, in addition to the actual cost of duplication, a special service charge will apply.
