**POLICY STATEMENT**

Florida International University ("FIU") is committed to protecting the privacy of Protected Health Information (PHI) in compliance with all applicable federal and state laws, regulations, and rules.

The minimum necessary requirements of the HIPAA Privacy Rule provides that Workforce members must only access the minimum necessary PHI to perform their assigned clinical or business tasks to fulfill their specific job duties and assignments. (See FIU Policy and Procedure #1660.120 (Minimum Necessary)).

Workforce Members’ job duties do not include accessing their family members’ medical records as a legally authorized representative (Representative) or with written authorization on FIU’s time. Additionally, spending time looking in a family members’ medical records may be considered a disciplinary offense.

Workforce members are required to access a family members’ PHI according to FIU Policy and Procedure #1660.050 (Patient Access to Protected Health Information).

At no time and for no reason is a Workforce Member permitted to access, alter, edit, write orders within, sign documents, or change the information in a family members’ medical records unless permitted by the HIPAA Privacy Rule, other federal law, Florida state statute, and FIU associated policy and procedure. Failure to comply with federal law and Florida state statute may constitute prohibited alteration of a legal record and prohibited practice of medicine.

If a Workforce member has legal authority to act on behalf of the family member as a Representative, the Workforce member must provide the Medical Records Manager, or
designee the documentation necessary to establish the legal relationship prior to accessing the
family members’ PHI. Accessing a family members’ PHI when this documentation is not in
place may constitute a violation of the HIPAA Privacy Rule, Florida state statute, and a breach
of PHI. (See FIU Policy and Procedure #1660.001 (Representative) and FIU Policy and
Procedure #1660.090 (Reporting of HIPAA Incidents and Notification in Case of a Breach))

Under certain circumstances, a Workforce member may be required to obtain and provide the
Medical Records Manager, or designee written authorization from their family member prior
accessing or obtaining PHI about the family member. Accessing a family members’ PHI prior
to obtaining and providing the family members’ written authorization may constitute a
violation of the HIPAA Privacy Rule, Florida state statute, and a breach of PHI. (See FIU Policy
and Procedure #1660.020 (Authorization for Uses and Disclosures of Patient Protected Health
Information) and FIU Policy and Procedure #1660.090 (Reporting of HIPAA Incidents and
Notification in Case of a Breach)).

At no time and for no reason is a Workforce member permitted to use his/her user
identification, unique user credentials, and password to access a family members’ PHI
contained within the Electronic Medical Records Application (EMR) even when the Workforce
Member is the patient’s Representative or has the family members’ written authorization to do
so.

When impermissible access is confirmed, Workforce Members are subject to sanctions
consistent with FIU Policy and Procedure #1660.086 (Sanctions for Impermissible Access to
Self or Family Members’ Medical Records).

SCOPED

This policy applies to all Workforce members (e.g., employees, faculty, medical staff,
volunteers, students, and other persons) and Business Associates performing work for or on
behalf of an FIU HIPAA Hybrid Designed Health Care Component(s)/Unit(s).

REASON FOR POLICY

The purpose of this policy is to establish requirements for the appropriate access of protected
health information (PHI) that is stored, managed, and/or maintained in an Electronic Medical
Record Application (EMR). All individuals have the right to expect that their PHI is maintained securely and confidentially, including the family members of FIU Workforce members. FIU also recognizes that our Workforce members may be acting as the Representative of their family member(s) or have written authorization to access a family members’ PHI.

FIU has established policies and procedures for Workforce Members to access and obtain copies of their family members’ PHI when they are acting as a Representative or have written authorization to obtain the PHI of a family member.

PROCEDURE STATEMENT

I. Workforce Member Access to Family Members’ Electronic Protected Health Information

A. Workforce members must make a request with the Medical Records Manager, or designee (hereinafter Medical Records Manager) to access and/or obtain a copy of their family members’ PHI contained within the family members’ Designated Record Set.

B. The Medical Records Manager will request the Workforce member make their request in writing by completing and submitting the Patient Access Request form (Access Form).

C. Although the Medical Records Manager will request the Workforce member complete and submit the Access Form, the Medical Records Manager will accept all verbal request for access and will not require the Workforce member to make their access request by submitting a completed Access Form.

D. If a Workforce member makes a verbal request for access to his/her family members’ PHI and will not complete an Access Form, the Medical Records Manager will complete the Access Form on behalf of the Workforce member, including the “For FIU Healthcare Component USE ONLY” section of the Access Form, and properly secure it within the family member’s medical records. In the alternative, the Medical Records Manager may document in the family member’s medical records the Workforce member’s verbal request and all action taken by the Medical Records Manager on the request.

E. The Medical Records Manager will request and obtain documentation from the Workforce member establishing the required legally authorized Representative (Representative) relationship prior to providing access and/or providing a copy of the family members’ PHI. In the alternative, the Medical Records Manager may obtain a properly completed Access Form from the family member or written Authorization from the family member permitting the Workforce member to access and/or obtain a copy of the family member’s PHI. (See FIU Policy and Procedure ##1660.001)
(Representative) and FIU Policy and Procedure #1660.020 (Authorization for Uses and Disclosures of Patient Protected Health Information)).

F. If the Workforce member is not able to provide evidence that they are the family member’s Representative, or that the family member has authorized the requested access, the Medical Records Manager will not grant the Workforce member access to the family member’s PHI.

G. If the Workforce member establishes that he/she is the family members’ Representative, the Medical Records Manager will not ask the Workforce member the reason(s) for making the request to access the family members’ PHI.

II. The Medical Records Manager adherence to the Patient Access to Protected Health Information Policy and Procedure.

A. The Medical Records Manager must use his/her user identification, unique user credentials, and password to log into the Electronic Medical Records Application (EMR) and provide the Workforce member access to the authorized PHI.

B. The Medical Records Manager must remain with the Workforce member during the entire time the Workforce member is accessing the family member’s authorized PHI and engaging in a visual inspection of the PHI.

C. The Medical Records Manager will only permit the Workforce member to view the authorized PHI. If the Workforce member makes a request for a copy of the medical records or specific PHI, the Medical Records Manager will produce a copy of the requested document(s) in the form, format and manner as authorized by the family member or in a manner consistent with the authority of the Workforce member’s status as a Representative.

D. In the alternative, the Workforce member may make his/her request for access to the family member’s PHI via the Electronic Medical Records Application (EMR) Portal. In response to such a request, the Medical Records Manager must provide the requested access via the Portal if consistent with internal policies and procedures regarding Portal access.

E. The Medical Records Manager will charge the Workforce member access fees in the same manner that all patients and Representatives are charged a reasonable cost-based fee.

F. The Medical Records Manager will ensure that any request to edit, modify, or delete information contained within the Medical Records is addressed and completed in a manner consistent with the requirements of FIU Policy #1660.055 (Amendment of Protected Health Information).
G. The Medical Records Manager will ensure that all documents requiring a signature (e.g., laboratory reports) are signed by the ordering health care provider. The ordering health care provider must not be the Workforce member who requested and was approved to access the family members’ Medical Records/PHI, unless the treatment relationship was previously approved by the Healthcare Component Administrative Office or Medical Director and the treatment relationship was previously documented in the family member’s Medical Records.

H. Any and all suspected or known violations of this policy and/or procedure must be reported to the Director of Compliance and Privacy for Health Affairs.

III. Confidentiality Agreement

A. All Workforce members within the Healthcare Components must read, sign and date the “Confidentiality Agreement – User Activity in Systems Containing Protected Health Information (PHI)” form as part of the new employee Healthcare Component onboarding process and annually thereafter by no-later than March 15th.

IV. Record/Documentation Retention

A. If a communication, action, activity, or designation is required to be documented in writing, the document or record owner (e.g., The Center for Children and Family) will maintain such writings, or an electronic copy, for seven (7) years from the date of its creation or the last effective date, whichever is later. (FIU Policy and Procedure #1660.080) (Policies and Procedures, Changes to Policies and Procedures, and Documentation)
